

FAMILY ESCAPE (6 Days, 5 Nights)

Your family will enjoy every moment at the 9 Beaches resort's chic soft-sided cabana located right on the beach, Bermuda's newest and most casual resort.

Some of the accommodations are perched on stilts over the tranquil waters with every cabana having ocean views. Here you'll have 84 chic cabanas from which to choose. Spread over 18 private waterfront acres on the western-most tip of Bermuda makes it "official" - 9 Beaches is the closest Bermuda resort to the United States. During the day the Resort's clear blue Bermuda waters make it perfect for every kind of water sports activity for your family.

Relax by simply lying in the sun on one of the nine beaches and enjoy a totally unhurried Bermuda vacation. And, as day draws to a close, grab a cocktail and your "consort" and experience some of the most magnificent and memorable sunsets anywhere on earth.

Relax by simply lying in the sun on one of the nine beaches and enjoy a totally unhurried Bermuda vacation. And, as day draws to a close, grab a cocktail and your "consort" and experience some of the most magnificent and memorable sunsets anywhere on earth.

Optional Tours:

Dolphin Encounter & Maritime Museum Tour

And for a truly unique family fun experience, we have included a visit to the Dolphin Quest at the nearby Bermuda Maritime Museum. Bermuda hosts one of three (the other two are in Hawaii) in the entire world. Dolphin Quest is dedicated to the public education and conservation of marine wildlife. Your family will learn about the dolphins and watch them in action. And if you plan well enough in advance, you can even get up close and personal - they have a number of programs that will actually allow you to get into the water and interact with these fabulous creatures. Imagine entering the world of the ocean to share a moment of mutual discovery with an enchanting dolphin friend. Dolphin Quest brings guests closer to the marine world through the extraordinary face-to-face encounters and the impact of the dolphin's incredible power, grace and beauty. Two renowned marine mammal veterinarians, who envisaged a special place where the dream of a close, personal encounter with one of the ocean's most amazing and intelligent creatures becomes a reality, created Dolphin Quest in 1984. It is through these rare, personal experiences, that dolphins arouse in us a strong affiliation with their mysterious, watery world and a passion to learn more.

Jet Ski Safari

Our safaris include a 75 minute guided tour, which skims over open water and explores exotic harbours and bays. Each tour is conducted with a maximum of six watercrafts capable of carrying either one or two passengers. So, whether you are a novice or a seasoned rider, you'll find this trip to be simple AWESOME!

Glass Bottom Boat Cruise

We strongly recommend this cruise to your family because it is really an enriching and stimulating experience and you will undoubtedly come away with a new understanding of the natural wonders of our underwater world.

This fascinating and enthralling cruise commences with an incredibly informative commentary that is second to none, as the boat weaves along the coast line of Hamilton Harbour. You will not only learn about the history and culture of Bermuda as you motor along, but you will also be enlightened as to who lives where (the rich and famous, of course!) and also learn about the exquisite flora and fauna of our islands.

Having crossed the Great Sound, our 2 hour Reef Explorer Safari will then take you right over one of our most famous shipwrecks. Due to the very shallow draught of the Reef Explorer, which has the largest glass bottom of any boat in Bermuda, you will be taken within just a few feet of the living coral reef habitats which are home to hundreds of species of fish, corals and marine organisms and provided with a spectacular view of the marine life: simultaneously, the informative commentary from our Captain and crew makes it easy to recognise the major corals and fish

below you.

You will be encouraged to take part in the feeding the fish, which is an eye opener in itself and it really is thrilling to see turtles popping up; it is great to know that the stringent efforts made to protect them has resulted in a dramatic increase in their population.

This cruise then culminates with a lovely cruise back through the islands, a fascinating talk and even an opportunity for discussion.

We are firmly committed to preserving and protecting our planet's precious natural environment, and it is our belief and hope that your "Reef Explorer Safari" will give you an awareness of the fragile beauty of our coral reefs.

Note: should you decide to add these options, please book with us in advance to ensure your seats. Your family can select from the following water sports activities:

- * Sail crystal clear Bermuda waters on a **Hobiecatamaran**
- * Paddle **asea kayak** past all nine beaches
- * Bob aboard **afloating lounge**
- * Lounge around and soak up the sun on **araft**
- * Pedal your **paddleboat** to your heart's content
- * **Sail** to the wreck of the HMS Vixen, an 1860s twin-screwed ironclad
- * **Snorkel** off any one of the many beaches
- * Skim the surface on **akite board**, following lessons from instructors certified by the International Kite boarding Association.
